

HTH Winter Residency January 27-29, 2010

DRAFT Agenda

The overall goal for this residency is to learn as much as possible about HTH principles and practices by getting immersed in the life of the school. All workshops/presentations are optional. We encourage participants to seek out the best contexts for their learning, whether classroom observations, workshops, or informal conversations. We will make every effort to meet requests for learning opportunities.

Wednesday, January 27
