## Baby X Project Video Rubric

Your videos will be graded on the criteria below. You will be assigned points based on how well you addressed each of the categories.

-----  
Video Concept – the video concept is clear and easy to follow.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Audio Clarity – voices and effects are clear without too much fluctuation in volume.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Various camera angles – interviews are conducted using different camera angles. If different camera angles were not used when filming, the effect has been duplicated using editing techniques.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Background Music – the video has appropriate music in the background. Volume of music is lowered during interviews so it does not interfere with any dialogue that may be happening.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Voiceovers – there are interview portions in which there are alternate images to go along with uninterrupted speaking.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Introduction – the video includes an opening scene that sets the tone for the rest of the video

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Name captions – When characters appear for the first time, a title comes up with their name and who they are.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Constant scene changes – there should not be many long uninterrupted scenes (a scene with somebody talking on camera for more than 30-45 sec is probably too long).

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Conclusion – the video does not just end abruptly. If there are credits, students' last names should not be used.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)

-----  
Overall Professionalism – the video is clearly a finished product and shows use of various editing techniques.

Neglects (0)                      Approaches Expectations (1)      Meets Expectations (2)
