Peer Critique: Purpose, Models and Protocol

Peer Critique

The purpose of peer critique is to provide the creator(s) with feedback that will help them to know what exactly is working well and specifically what to change.

Ex. Great hair day...bad belt!

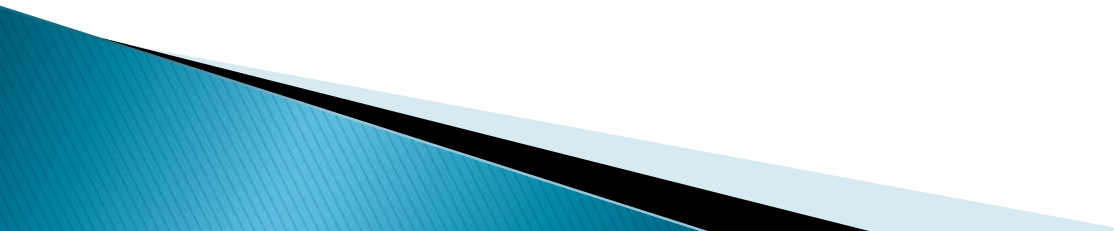

Warm and Cool Feedback

During a peer critique, the people who are critiquing the work give warm (complimentary) and cool (constructive criticism) to the creator.

It is very important to be as specific as possible and to refrain or stay away from using euphemisms such as “I really like it.”

Model Starters for Warm Feedback

Warm Feedback Models:

- It is interesting how you used_____ to accomplish_____.
 - I can tell who the character is because of_____, _____ and _____.
 - My eye is drawn to_____ because of _____.
- 

Model Starters for Cool Feedback

Cool Feedback Models:

- I don't understand why you_____.
- This part is confusing. What did you mean by_____.
- The character might improve if you did_____, _____and_____.
