# High Tech Middle North County 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year) 

## General Information about the School Accountability Report Card (SARC)

SARC Overview

## DataQuest

## California School Dashboard

## Internet Access

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

## The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.
Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

About Our School
Kelly Jacob has over 18 years of experience in independent, public, and charter schools in southern California. Before stepping into the role of director, she taught Humanities at High Tech Middle North County and served as a mentor and instructor for new teachers in the High Tech High Graduate School of Education. Kelly finds joy in the chaos of middle school and is passionate about helping students develop their sense of self, uncover their potential, think critically, and do work that matters.

## Mission Statement

In 2009, High Tech Middle North County was the eighth school and third middle school added to the HTH organization of schools. As the first middle school from our organization located in North County, we are proud to serve and reflect our diverse community and offer a rigorous, project-based approach to learning. Our school community currently enrolls 336 students, 112 in each grade level. At HTMNC, our curriculum is based on the HTH design principles of equity, personalization, authentic work and collaborative design. Teachers, as curriculum designers, strive to create innovative, project-based learning experiences to engage our diverse group of students in complex, relevant, adult world projects in order to prepare them for life beyond school.

Our classrooms are fully inclusive, as we strive for all students to reach their potential. All of our students participate in multiple Exhibition Nights, where their work is on display for the community, and they conduct Presentations of Learning at the end of each semester to demonstrate their understanding and growth. Each student also has a designated faculty advisor who offers academic, emotional, and social support throughout their middle school journey. Students in all grades are on teaching teams which include Humanities and Integrated Math/Science for the full school year, and take exploratory classes in Makerspace, Performing Art, and Visual Arts.

## A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements
HTMNC is a 28,720 square foot, two-story, middle school built in 2012. The building is in excellent condition, with maintenance and custodial services provided by on-site staff. There are no maintenance needs beyond those that are routine for a school of this size.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

## Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

## 4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

## Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

| Subject | School <br> $2020-21$ | School <br> $2021-22$ | District <br> 2020-21 | District <br> 2021-22 | State <br> 2020-21 | 2021-22 |

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2022-23 Opportunities for Parental Involvement

Parents have an active voice at HTMNC. Parents have many opportunities to volunteer in classrooms, meet with teachers, attend student exhibitions and presentations of learning, as well as attend $\mathrm{K}-12$ village events aimed at building community within our village of schools. We foster relationships not only between teachers and students, but between teachers and families to ensure that parents are active participants in the school and educational community. HTMNC's Parent Association also works to increase communication with parents and help involve parents in making decisions that positively impact student experience and learning outcomes. Through the PA, parents can help plan and coordinate fundraising, plan community events, and foster a positive social environment for students from all communities. HTMNC also has an active Padres Unidos parent group that helps to ensure our Spanish speaking families are connected to the school. They host events for families and support the schools and staff throughout the year.

## State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

| :--- | :---: | :---: | :---: |
| 2019-20 | State |  |  |
| Suspensions | 1.46 | 2.73 | 2.45 |
| Expulsions | 0.00 | 0.00 | 0.05 |

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

HTMNC reviews and updates its Comprehensive School Safety Plan ("CSSP") and Confidential Site Emergency Response Plan ("SERP") annually.

The CSSP is shared with students and families online via the HTH website at www.hightechhigh.org. The CSSP and SERP are shared with staff at the beginning of the school year, and the emergency policies and practices outlined in the CSSP and SERP are shared with students throughout the year during practice drills.

The plan includes policies and procedures addressing topics such as: disaster preparedness; crisis response; mental and physical health; earthquake emergencies; school learning environment; discipline, suspension, and/or expulsion; hate crime reporting; child abuse reporting; release of a pesticide or toxic substance; and more.

## 2021-22 Types of Services Funded

High Tech Middle North County offers a preparatory curriculum that supports students in finding success in the UC A-G coursework that they will take in high school in preparation for college admission. This includes an integrated math and science class, a humanities class, an arts class (exploratory), advisory and x block (electives) daily. During these courses, all students have access to technology to complete their school work. During X Block, students have opportunities to get involved with activities such as technology and multimedia, football, soccer, rock climbing, exploring other cultures, and academic coaching for struggling students. In addition, students are able to go on field trips and attend camps and retreats. HTMNC also offers a comprehensive before and after school program.

Professional development is an important facet at HTH schools. Dedicated time to hone one's teaching practice is incorporated into each teacher's work year, per their contract, and takes multiple forms:
Early Release Wednesdays: Every Wedensday, students are released early to allow teachers time for professional development. This time is spent building and refining project work and aligning projects to curriculum standards, analyzing student data to make refelective classroom and curricular adjustments, in departments to align math or writing practices, discussing student needs, as well as training teachers in best practices. Staff days: Veteran staff return to school 8 days before school starts. There are also 5 staff days throughout the year plus 2 additional staff days at the end of the year. Staff days are an opportunity for teachers to learn from one another, built on the belief that "we have a lot of expert knowledge here in our building."
New Teacher Odyssey: Prior to the 8 staff days for veteran teachers, teachers new to HTH participate in a 5 day "Odyssey." During Odyssey, teachers experience project based learning as learners themselves, engaging in a Project "Slice"; a shortened version of a project with the key components.
Weekly Meetings: Teachers arrive 50 minutes before school starts to engage in collegial dialogue. Meetings occurs at least 3 days per week. In practice, these meetings provide space for veteran and new teachers to reflect on and refine their day-to-day practice. These meeting enable teachers to collaborate, analyze data, plan projects, tackle dilemmas and discuss student needs.
It is worth noting that, as part of the HTH charter management organization, HTH teachers receive additional professional development support through the HTH Credential Program and the HTH Graduate School of Education.
