## 2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

## 2024-25 School Description and Mission Statement

About Our School

Jade White is the Director of High Tech High International. She has been a member of the HTH community since 2004. She taught math and physics at HTH for 13 years before transitioning to the role of Director at HTHI. As an educator, Jade believes in creating an equitable and collaborative experience where students explore the world around them via hands-on projects and inquiry.

## 2024-25 School Description and Mission Statement

HTHI is a public charter school which draws upon the diversity of San Diego through a random lottery acceptance system. The goal of High Tech High International is to offer a college preparatory, project-based learning environment to 9-12 grade students. Our work is guided by our four design principles: equity, personalization, authentic work and collaborative design.

### Equity

High Tech High is an equity project. Teachers work actively to address inequities and help students reach their full potential. Our schools are intentionally diverse, enrolling students through a zip code-based lottery aimed at creating schools that are reflective of the communities we serve. Teachers recognize the value of having students from different backgrounds working together, and employ a variety of approaches to accommodate diverse learners without academic tracking. All High Tech High International graduates complete the requirements for acceptance into the California public university system.

### Personalization

High Tech High teachers practice a learner-centered, inclusive approach that supports and challenges each student. Students pursue their passions through projects, and reflect on their learning. Recognizing that identity development and personal growth occur in the context of community, our schools foster relationships of trust, caring, and mutual respect among students and adults through program design elements such as small school size, small classes, home visits, advisories, and student collaborative work.

### Authentic Work

High Tech High school projects integrate hands and minds and incorporate inquiry across multiple disciplines, leading to the creation of meaningful and beautiful work. Students engage in work that matters to them, to their teachers, and to the world outside of school. Students connect their studies to the world through fieldwork, community service, internships, and consultation with outside experts. Our facilities are collaborative workplaces with small-group learning and project areas, relevant technology, and common spaces where artwork and prototypes are created and displayed.

### Collaborative Design

High Tech High teachers collaborate to design curriculum and projects, lead professional development, and participate in hiring, while seeking student experience and voice in each of these areas. With students as design partners, staff functions as reflective practitioners, conducting inquiry into equitable teaching and learning, school culture, project design, and authentic assessment. We are all still learning.

Additionally, as a school, we have spent time iterating and designing our mission statement "We are a human centered community that cultivates empowered, resilient, lifelong learners." All staff engaged in a multi-step process to arrive at a mission statement that we all believe in and work towards daily.

Socioeconomically Disadvantaged	42.5
Students with Disabilities	19.2

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2020-21 Teacher Preparation and Placement

## School Facility Conditions and Planned Improvements

HTHI is a 29,429 square foot, two-story, high school that occupies a structure originally built in 1967+/- . The building is in excellent condition, with maintenance and custodial services provided by on-site staff. There are no maintenance needs beyond those that are routine for a school of this size. LED lighting and other energy upgrades were implemented in 2016.

As of the school's most recent FIT report, from December 2021, HTHI facilities are considered to be in "exemplary" condition. All of the reported categories (systems, interior, cleanliness, electrical, restrooms/fountains, safety, structural, and external) were rated as "good".

**Year and month of the most recent FIT report**

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	62	46	52	52	46	47
<b>Mathematics</b> (grades 3-8 and 11)	34	26	40	41	34	35

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

High Tech High International's Parent Association has been instrumental in improving communication with parents and getting more parents involved in making decisions that positively affect student learning outcomes. The Parent Association holds monthly meetings at the school site in addition to bi-monthly Java with Jade meetings. The Java with Jade meetings provide an opportunity for parents to learn about specific programming at our school as well as ask questions, share celebrations and raise concerns as they arise. Parents have an active voice at HTHI. Parents have ample opportunities to volunteer in classrooms, plan and coordinate fundraising efforts to give money back into school programs by way of a grant program, foster a positive social environment for students from all communities, provide optimal nutrition to students during testing times throughout the year, and communicate to all members of the community via a parent e-newsletter and monthly news blast.

## 2024-25 School Safety Plan

HTHI reviews and updates its Comprehensive School Safety Plan ("CSSP") and Confidential Site Emergency Response Plan ("SERP") annually.

## 2024-25 School Safety Plan

The CSSP is shared with students and families online via the HTH website at [www.hightechhigh.org](http://www.hightechhigh.org). The CSSP and SERP are shared with staff at the beginning of the school year, and the emergency policies and practices outlined in the CSSP and SERP are shared with students throughout the year during practice drills.

The plan includes policies and procedures addressing topics such as: disaster preparedness; crisis response; mental and physical health; earthquake emergencies; school learning environment; discipline, suspension, and/or expulsion; hate crime reporting; child abuse reporting; release of a pesticide or toxic substance; and more.

## 2021-22 Secondary Average Class Size and Class Size Distribution

This table displays the 2021-22 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	16	6	4	
Mathematics	18	12	8

## Fiscal Year 2023-24 Types of Services Funded

High Tech High International offers a college preparatory curriculum where all students take UC A-G coursework in preparation for college admission. During these courses, all students have access to technology to complete their school work. In addition, students enroll in X Block, where they have opportunities to get involved with activities such as technology and multimedia, football, soccer, rock climbing, exploring other cultures, and academic coaching for struggling students. In addition, students are able to go on field trips and attend camps and retreats. The school also supports an academic internship program.

## Professional Development

Professional development is an important facet at HTH schools. Dedicated time to hone one's teaching practice is incorporated into each teacher's work year, per their contract, and takes multiple forms:

- **Staff days:** Veteran staff return to school 10 days before school starts. There are 4 staff days throughout the year plus 1 additional staff days at the end of the year. Staff days are an opportunity for teachers to learn from one another and are built on the belief that "we have a lot of expert knowledge right here in our building."
- **New Teacher Odyssey:** Prior to the 8 staff days for veteran teachers, teachers new to HTH participate in a 3 day "Odyssey." During Odyssey, teachers experience project based learning as learners themselves, engaging in a Project "Slice"; a shortened version of a project with the key components.
- **Weekly Meetings:** Teachers arrive one hour before school starts to engage in collegial dialogue. Meetings occur 3 times per week; two times as a full staff and one time in grade levels. In practice, these meetings serve as a theoretical context for veteran and new teachers to reflect on and refine their day-to-day practice. These meeting enable teachers to collaborate, analyze data, plan projects, and tackle dilemmas.

It is worth noting that, as part of the HTH charter management organization, HTH teachers receive additional professional development support through the HTH Credential Program and the HTH Graduate School of Education.

This table displays the number of school days dedicated to staff development and continuous improvement.
